“ *Phil and I are completely broken hearted over losing John and still in a bit of shock. John was always a kind gentleman who loved to engage in conversation. He will be greatly missed at Luxury. Our heart goes out to the family and our prayers are covering you all. The loss y'all have been through over the past few weeks is just unbelievable. Only God can heal your broken hearts. We will see you all this afternoon to celebrate the life and memory of our friend, John Carter.*

“ John would come by our office to have lunch with Dana on occasion. It was always good to see him! He loved his family so much!

I remember when he bought his Miata convertible. He called Dana and asked her to come outside of our office to see what he bought. We went outside and he drove up in this fun little car! It was a great memory!
