

Sue Bowers Harrison

November 3, 1961 - December 15, 2021

Sue Bowers Harrison, 60, of Greenville, SC, passed away on Wednesday, December 15, 2021.

Sue was one of the strongest women you would ever meet. All that life threw at her over the years, she fought with unheard of strength and conviction. No matter the situation, she was a true inspiration for us all. Sue loved to travel and go on adventures of any kind. She loved all the time fishing in the rivers, with her love Todd, especially their favorite spot in Fall River. Paris, France, was her happy place and held a special place in her heart. Paris is where dreams came true for her.

Sue was an amazing photographer and loved to photograph wildlife. Bald Eagles were some of her favorites, and she would travel far and wide to hunt for them. She knew all the best eagle spots from Wisconsin to Iowa. Her favorite wildlife spot was Horicon Marsh, she spent numerous hours there enjoying the wildlife and scenery. The many beautiful photos taken by Sue will be a reminder of how amazing she was.

Recently moving back to South Carolina was good for her soul. Being close by her daughters, Kelly and Beth, and their families, is where she always wanted to be. Spending time with her granddaughters, Gracie and Nora, brought her so much light and happiness. Every time she spoke about being a

Gigi her face would light up and you could see that her heart was full. She had so much love to give and delighted in offering it to those closest to her.

Sue was a beautiful soul on both the outside and inside. She would do anything she could for anybody who needed a hand, regardless of circumstances. Those who Sue called a friend meant the world to her. Sue had an infectious smile and attitude that would light up any room. Her hugs were some of the best and will be greatly missed.

Sue was diagnosed with cancer four times. Each time her attitude was positive. She did the research and prepared for battle. She rallied the troops and always had a strong support team behind her. Never would you hear, "Why me?" from Sue; she stayed positive and always saw something good in the situation.

Sue will live on in the hearts of all those who knew and loved her. If we could choose a guardian angel that will never let us down, will be strong and supportive, and will always have our backs, there would be nobody better than Sue.

Sue is survived by all those who loved her. She was preceded in death by her daughter, Lenora, and her four-legged soulmate, Cami. A Celebration of Life will be held on a later date. Bring your favorite story or memory to share with all those who loved Sue. She will be watching from above, probably eating popcorn, and smiling that beautiful smile of hers.

"Lovingly submitted by the family."

“ Oh, my friend Sue. I will miss you terribly. We have been friends since we were in our 20s in NC. I was there for some of the worst moments of your life, holding your hand...and you returned the favor many times. The memories of our friendship bring me joy as I mourn the loss of our time together. You will be remembered fondly, my friend, with laughter and tears. RIP, Sue.

“ I am deeply saddened by the loss of one of my dearest patients. I had a fond memory of Sue as I read her obituary, specifically regarding "Paris holding a special place in her heart". I remember her returning from a trip to Paris, where doctors there thought she might have suffered a mild heart attack. Upon her return, we didn't find any evidence of heart problems -- so, as with many things, she just decided to push forward and not worry about it. But, perhaps, in a playful way that I think she would appreciate, what might have happened is that she also left a small piece of her own heart in Paris? I am grateful to the family for calling to let me know about losing Sue, and I send my heartfelt sympathies to Todd and Beth and Kelly. -- "Doc" (as Sue called me), Mark Timmerman, M.D.
